

DIY AI Refresher or Introduction Course

Optimise your AI skills through our DIY insemination refresher course, to achieve better results on farm.

LIC's AI refresher training is an interactive and hands-on course aimed at improving DIY insemination skills.

1-DAY COURSE DETAILS:

- Use LIC's life-like artificial training cow 'Henryetta™'
- Includes semen handling, liquid nitrogen safety and bovine anatomy
- Free samples and information packs to take away
- Up to 8 participants
- Lunch provided

**Want an event in
your local area?**

Events are organised once we receive enough interest. With a minimum of five participants, we'll arrange the date and venue. Let us know if you'd like to take part!

Contact LIC Australia with your expression of interest, to join a course, or to suggest one in your area.
