

DIY AI Certification

Learn to do your own inseminations with our DIY inseminator certificate.

LIC offers a comprehensive AI training course to international participants wanting to gain valuable knowledge and practical skills. Our AI technician service has been around for more than 50 years and consistently achieves high conception rates. This course is taught by LIC's experienced trainers in modern facilities.

Course details:

- Located in Hamilton, NZ
- Taught over six days
- Minimum of 200 inseminations on live animals in compliance with NZ animal ethics standards
- Use of LIC's life-like artificial training cow, Henryetta
- Maximum of eight participants per course
- Courses run in late February / early March
- Those who pass are awarded a certificate from LIC
- \$1350 + GST per person + travel costs.
