

# DIY Pregnancy Test Livestock

ACCREDITED COURSE FOR FARMERS

**JOIN OUR HOST FARM INCENTIVE PROGRAM AND WE PAY YOU TO HOST OUR COURSES ON YOUR FARM**

Orion delivers a suite of Livestock Breeding courses in Queensland, New South Wales and Victoria. After successfully gaining Animal Ethics Approval, Orion is now introducing DIY Pregnancy Test Livestock courses.

This course is practical, interactive and delivered on-farm to provide the best learning environment. Our experienced instructors supervise and give immediate feedback whilst students practice the pregnancy test technique on live cows.

This course uses the manual palpation technique throughout various stages of gestation (90 days +) and students must test a minimum of twenty (20) live cows.

**Meet Leesa Ison – Orion’s Lead Pregnancy Test Trainer.** Leesa has over 35 years of experience providing livestock breeding services and pregnancy tests approximately 7,000 cows per year. Having grown up on the family farm and continuing to manage the cattle operations, Leesa keeps her skills at a high level and a high accuracy rate. Leesa is passionate about teaching others best practice breeding techniques and animal welfare.

Successful completion of the theory and *three (3) day on-farm practical training and assessment*, results in a *Nationally Accredited Statement of Attainment for AHCLSK339 Pregnancy Test Livestock*.

**ENROL TODAY and take control of your breeding practices whilst saving time and money!**
